

## Mesoeclat

It is the ultimate rejuvenating treatment, offering visibly younger, softer and smoother skin.

### About

Mesoeclat is a new anti-aging treatment consisting of injections and is an alternative to wrinkle relaxing injections, reportedly used by Madonna. It restores skin vitality, elasticity and the renewal of cells. It has been hailed as the ultimate rejuvenating treatment, offering visibly younger, softer and smoother skin.

The **Mesoeclat Rejuvenation System** is specially developed to provide the greatest possible stimulation to cellular defence mechanisms and effectively fight against both intrinsic and extrinsic ageing.

#### The *mesoeclat* method aims to

- Revitalize by stimulating the renewal of the skin surface layers
- Increase the luminosity of the skin
- Eliminates skin imperfections
- Moisturize in depth
- Improve firmness and elasticity
- Eliminate wrinkles and expression lines

The result is a visibly younger, softer, smoother and more even skin.

### Treatment explained

The **mesoeclat system** is an intensive rejuvenation protocol consisting of 5 sessions of treatment at 10 day intervals.

Each session of treatment consists of three phases, which act at different levels to achieve a spectacular result.

- Preparation of the skin, epidermal renewal and reduction of imperfections.
- Intensive anti-aging shock treatment: skin regeneration and increased luminosity.
- Moisturizing and elimination of wrinkles for a perfect skin.
